FOR PET BUSINESSES · SALT LAKE VALLEY

The dog hair, *out of your clients' cars.*

Your clients bring their dogs to you every week, and the hair stays in the car. Here is a small perk for them, from a mobile detailer in West Valley City.

FOR YOUR CLIENTS

Light pet hair removal, free when they mention you.

Free light pet hair removal, $20 on a sedan

Your clients get light pet hair removal free with any detail that includes the interior when they mention you (one per detail, no cash value). On Renew and Radiance, where pet hair is already an included pick, it frees that pick for something else.

Code: BARK-YOURNAME

One code per business, so I can count who sent whom. Your staff get the same perk when they mention you.

FOR YOUR FRONT DESK · AND YOUR VANS

Nothing for you to manage.

QR cards. I can drop off cards for your front desk. Clients scan one and get a price for their own vehicle, then book with your code.

A newsletter blurb. If you send one, I can write two plain sentences you can paste in.

Your vans. Pickup or transport vans get detailed too. Van detailing is quoted after I see one van.

No commissions or referral fees, and nothing else is offered or sold to your clients.

How it works

01

Your client books any detail that includes the interior, at lumenfinishworks.com or by text. At home or by drop-off.

02

They mention you or give your code, BARK-YOURNAME. I note it on the booking.

03

The light pet hair comes out free. They get the detail they booked plus the perk. Nothing else is added.

How I work

- **Measured, not guessed.** Paint gauged panel by panel before any machine polishing.
- **Careful chemistry.** Interior cleaners wiped off or extracted; fragrance-free unless they ask.
- **Inspected under lights.** Every job, with before & after photos sent to your client.
- **Dry times, told plainly.** I say how long to keep pets off (shampooed fabric usually 2–6 hours).

lumenfinishworks.com/pets

Chemistry, not guesswork.

Light pet hair removal is $20 on a sedan, before Utah sales tax where it applies; it scales with the vehicle. Heavy pet hair (hair worked into the seams and carpet) is its own add-on, priced from a photo at booking; the perk covers light pet hair. Perk: one per detail, no cash value, details that include the interior. Lumen pays no commissions or referral fees. Safety Data Sheets for every product are available on request.
